The security features listed below, as well as those not listed, exceed industry guidelines.

## Security Features:

## Microprint Border

## Security Screen

## Chemical Reactive Paper

## Fluorescent Fibers

## Results of document alteration:

- Small type in the border on the face of the check appears as a broken line when photocopied.
- Absence of "Original Document" verbiage on back of check.
- Stains will appear if bleach or chemical alteration is attempted.
- Multi colored fibers embedded in paper are visible under UV Light.
